

OPEN-SOURCE PROJECT SUPPORTED BY JEST

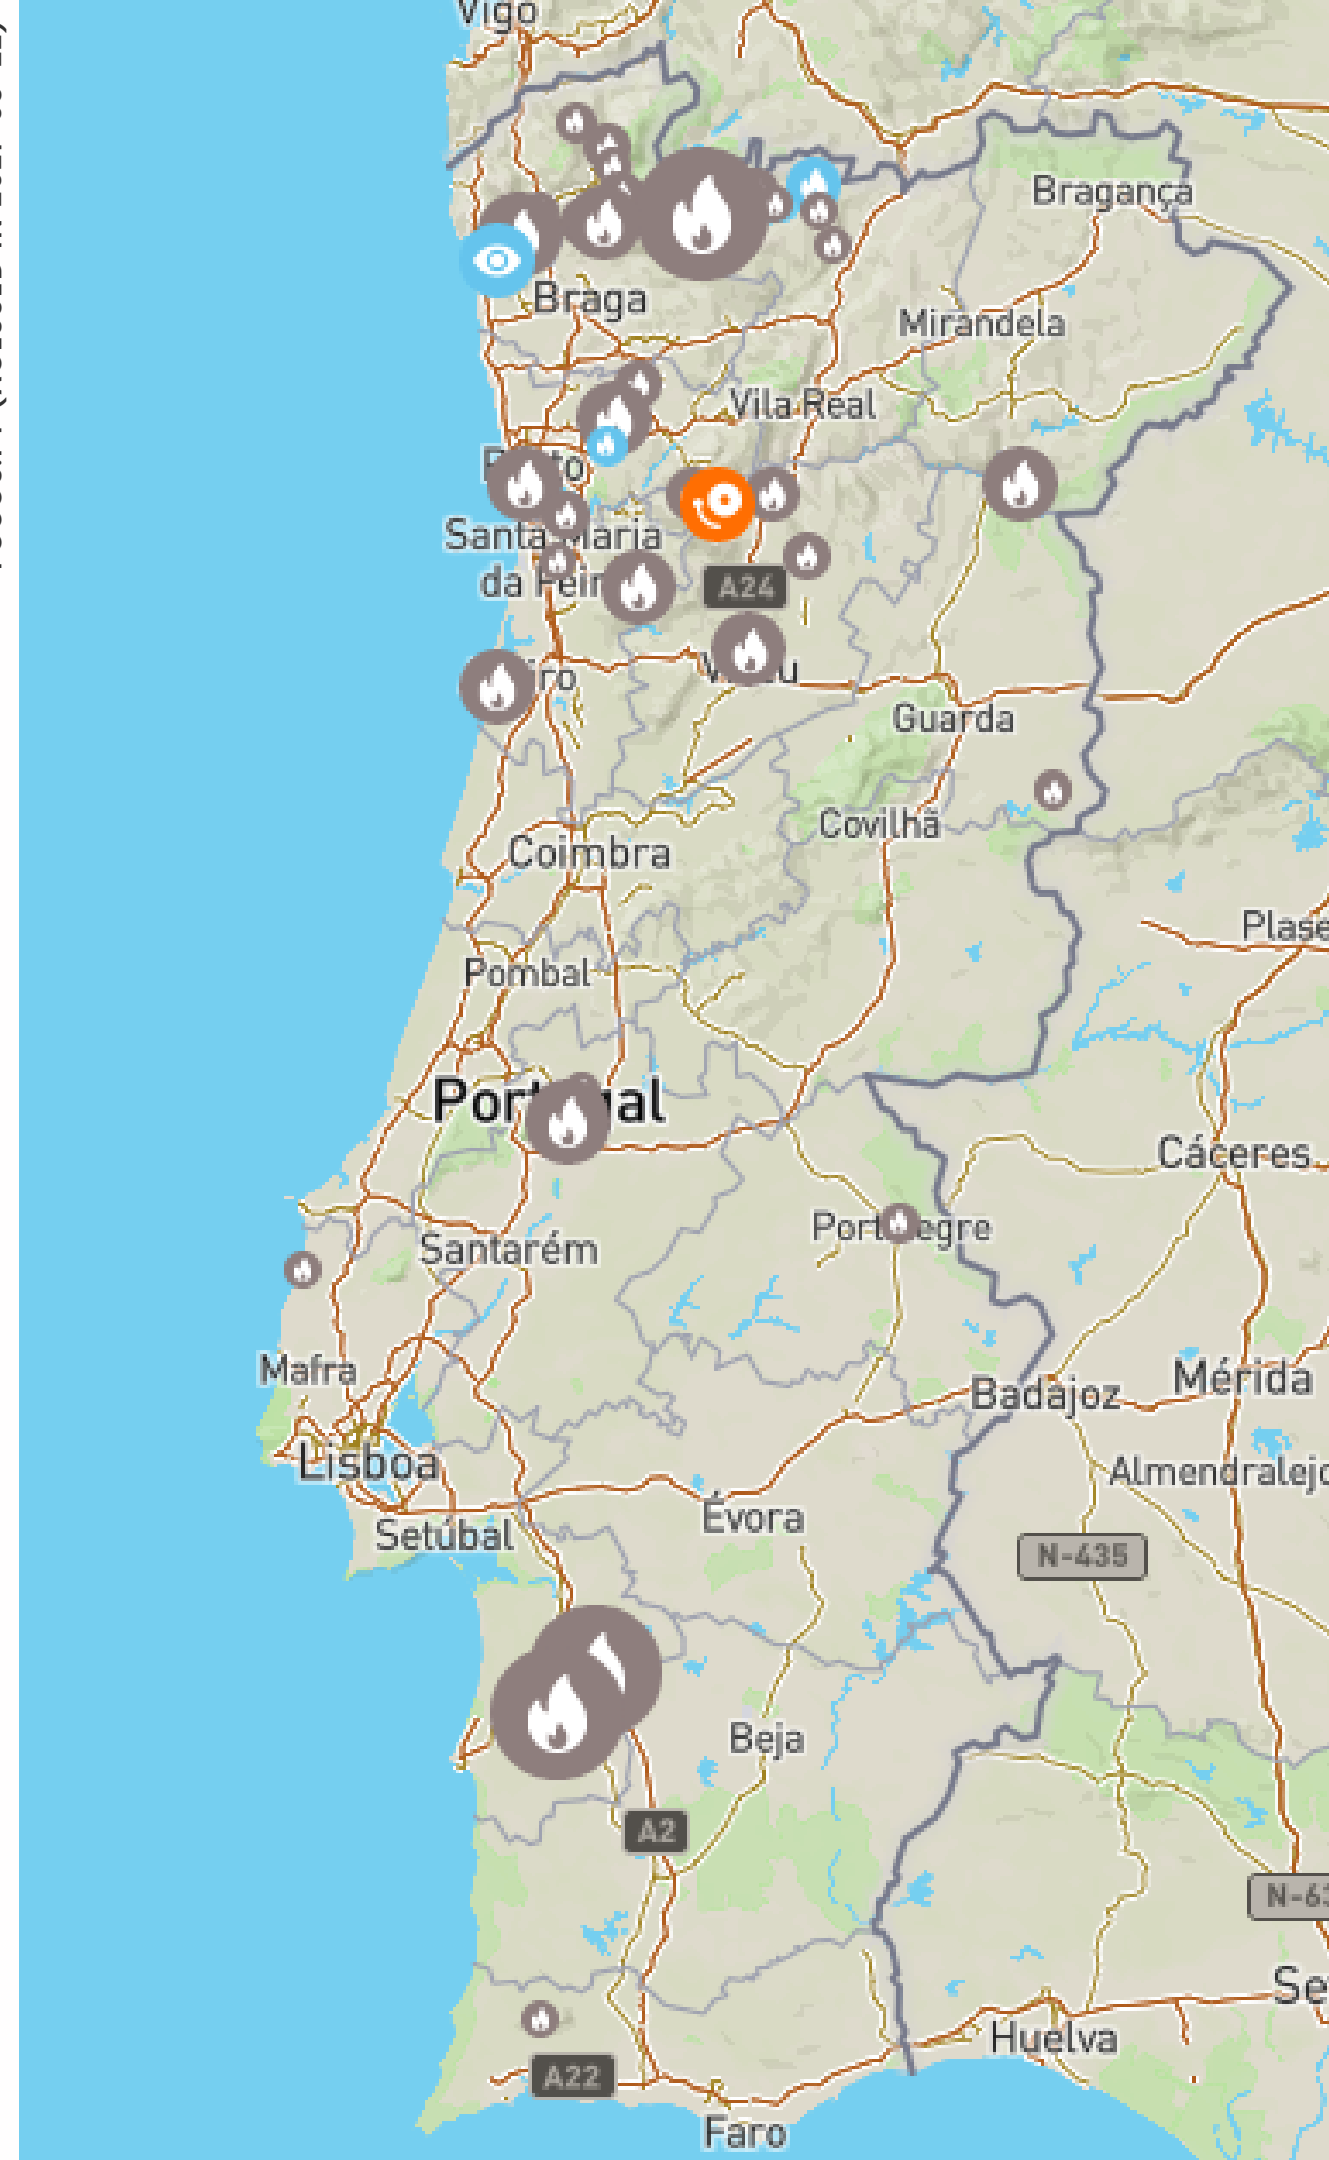

# PORTUGAL EM CHAMAS

---

A picture is worth a thousand words

FOGOS.PT (ACCESSED IN 2021-03-22)

**Huge Wild Fires take place  
every year in Portugal, but the  
majority of the population does  
not realize the impact of these  
events**

# We propose to create a platform capable of generating **empathy**

When we put ourselves in the other's shoes, it is generated:

Empathy

Caution

Donations

Knowledge

# DATA + KNOWLEDGE

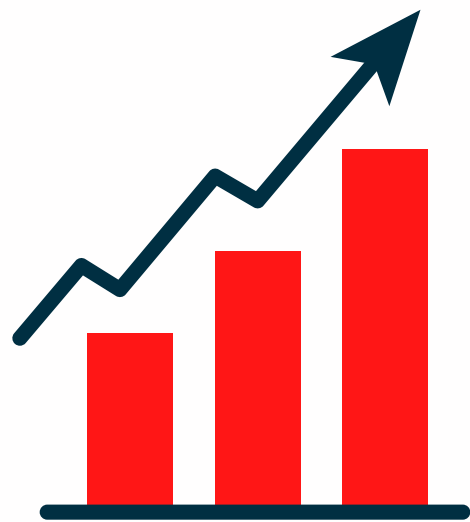

The information is only valid if it is understood

**Open-Source** Project, which aims to create **empathy** in people. What if wild fires were in my area?

# Project Plan

1

Minimum viable product

2

Learn by doing (beta version)

3

Final product

4

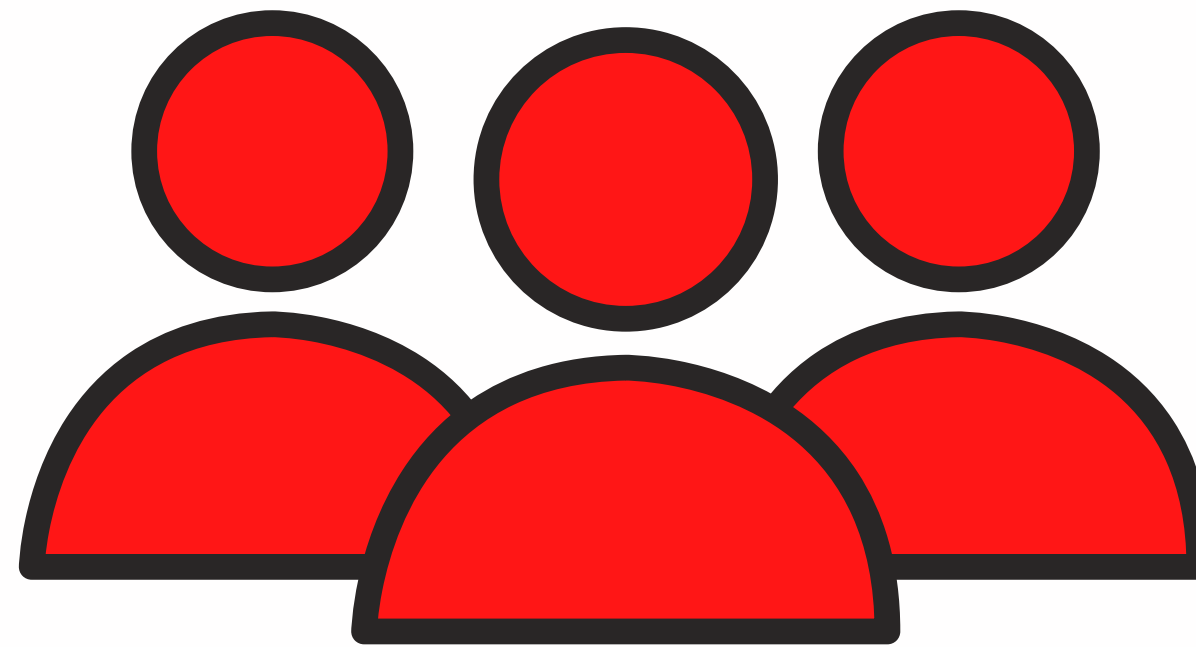

Continuous improvements

# Potential partners:

- Community
- Firefighters
- Universities
- Companies and NGOs
- City councils and CCDRC
- Portuguese Government
- European Union

# Our team

## JEST

Avram Gincu (UX and UI Designer)  
Rafael Molter (Developer)  
Tiago Tamagusko (Project Manager)  
Vasco Santos (Main Developer)

## Community

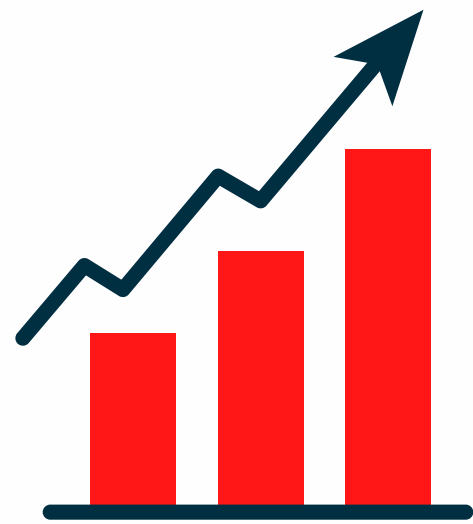

We are open! Join us!
